---

At Get Laid Beds, we combine traditional craftsmanship with innovative workflow solutions to meet the demanding needs of the hospitality and contract sectors. Our solid wood beds are more than just furniture—they're investments in durability, style, and sustainability. With bespoke designs, fast delivery, and unmatched attention to detail, we partner with businesses to bring their visions to life. Whether you're furnishing a boutique hotel, a luxury residence, or student accommodation, we provide beds that promise comfort, quality, and reliability, ensuring your guests always rest easy - Let's build something exceptional together.

## //HOTEL HOSPITALITY BEDS

Our industry-leading hospitality collection ensures you have access to a variety of specifications and price points. Whether that's our top of the range four poster collection to our all New Divan Base. Get Laid Contract Beds offers total confidence, knowing that every bed and mattress leaving our factory has been handcrafted with the care.

## //STUDENT LIVING

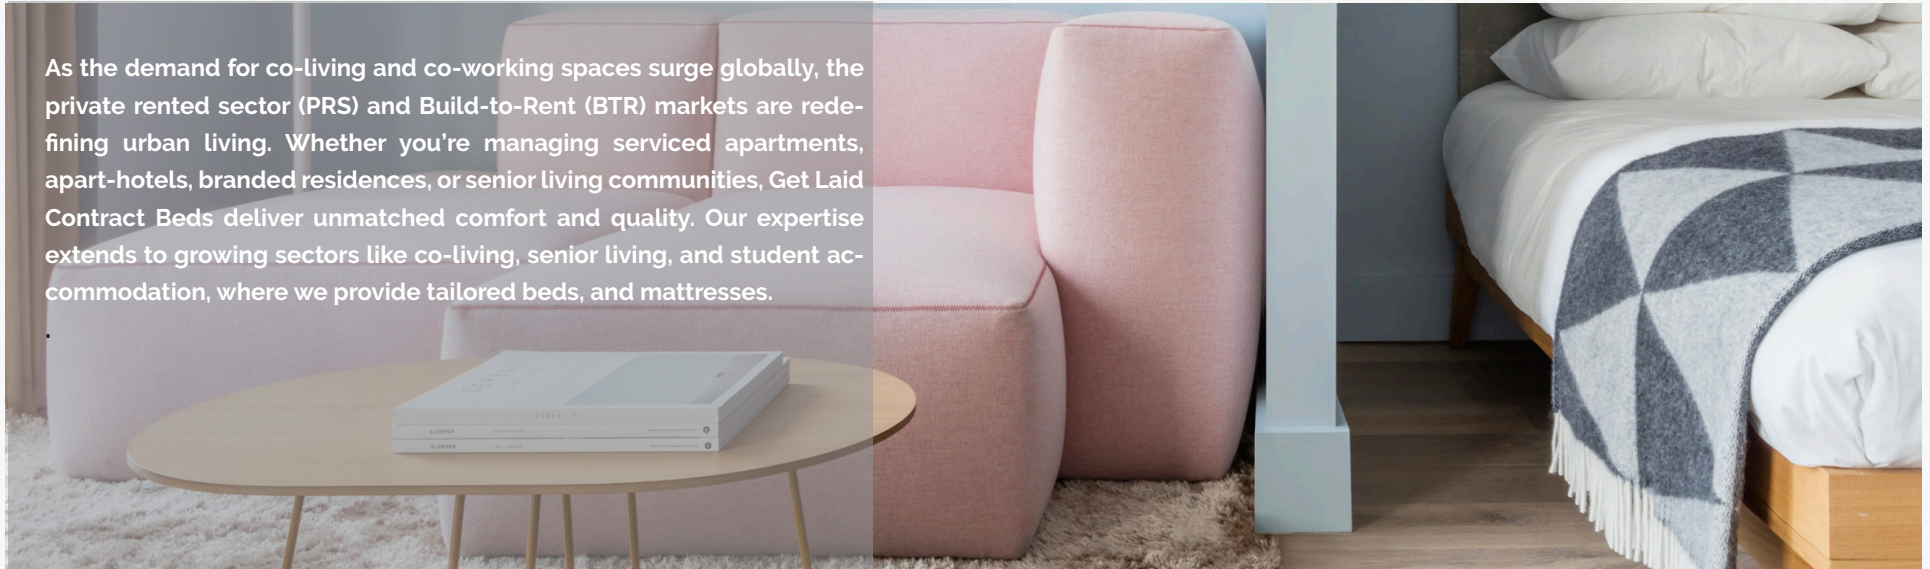

We at Get Laid Beds understand the connection between quality sleep and academic success. Good sleep is vital for learning, memory retention, and overall well-being, making it essential for students to have a comfortable and supportive bed.

Student living beds also need to be strong and maintainable. Offering a 5 year warranty with all parts replaceable and interchangeable Get laid Beds enables operators to continually offer a quality bed without compromise.

## //SERVICED APARTMENTS

As the demand for co-living and co-working spaces surge globally, the private rented sector (PRS) and Build-to-Rent (BTR) markets are redefining urban living. Whether you're managing serviced apartments, apart-hotels, branded residences, or senior living communities, Get Laid Contract Beds deliver unmatched comfort and quality. Our expertise extends to growing sectors like co-living, senior living, and student accommodation, where we provide tailored beds, and mattresses.

## //LEG STYLES

Our expert designers have created the choice of 4 different unique bed leg styles to choose from. Carefully handcrafted for compatible beds, add your personalisation and dramatically change the style of your bed. Each one has distinctive characteristics and is available in all the same colours and woods we offer.

### *Square Legs (As Standard)*

This style is the classic design that comes as standard with all our bed frames. The beautiful style features clean lines perfect for any bedroom setting. It's the ideal choice for those looking to keep things simple and natural.

### *Tapered Legs*

With their sharp angled stature, the tapered leg is the statement choice. The "thinning" of the leg shape helps elevate the base and cuts the profile of the bed design in a more modern way. This is the favourite option for both Jonny & Jean, where the Kensington Bed (Tapered Option) is the perfect example of how the bed sits so attractively, which works so well in any modern bedroom design.

### *Curved Legs*

These legs feature a gentle curve on the outside corner for a smoother edge. This is a very popular choice and boasts many benefits including the aesthetics as well as practicality as you're less likely catch your toe. A recommended choice for beds in smaller rooms. The curved corner option applies to the footboard legs only.

### *Turned Legs*

Featuring gentle, smooth curves, the turned leg option is a truly beautiful choice which complements any bed design. It will change the style, but the ornate beauty in the curves works in harmony with the modern clean lines of the accompanying bed design to offer a different aesthetic which may better suit certain bedrooms such as the chic rustic look.
